

NATIONAL EMERGENCY TELE-CRITICAL CARE NETWORK

NETCCN

VIRTUAL CRITICAL CARE ANYWHERE

NETCCN provides FEDERALLY FUNDED support for limited periods in the context of Disaster Response to small and large hospitals or healthcare systems that need help managing patients with severe COVID-19.

HIGH QUALITY CRITICAL CARE SUPPORT TO ANY BEDSIDE

- A proven technical platform
- Vetted, Board Certified and Licensed Clinicians
 - Intensivists
 - ICU Nurses
 - Respiratory Therapists
 - Pharmacists
 - and More

The NETCCN links remote critical care expertise to frontline clinicians using secure, HIPAA compliant applications on mobile devices (personal or locally furnished) to provide flexible (up to 24/7) support to healthcare teams.

OUR SERVICES

Clinician Relief Coverage

Remote critical care trained clinicians to support COVID-19 or many national emergencies during patient surges.

Expertise

Rural, Critical Access, & Overwhelmed Hospitals in need of eConsult support, tiered staffing, telehealth and at home monitoring.

Technology

HIPAA-compliant, low resource, stand-alone health information management for virtual care wards.

Communication

Easy, reliable communications between patients, care teams, and family members, even in the hardest times.
